2. Is the trial period measured in calendar days or trading days?

– The trial period is measured in calendar days, ensuring traders have ample time to explore the algorithm's features and performance across various market conditions.

3. What is the win rate of Trend Fusion?

– Trend Fusion boasts an impressive win rate of 85%, providing traders with a high probability of success in their trading endeavors.

4. I need additional assistance setting up. Can I speak to someone?

– Traders can easily book a personalized one-on-one session with our team during normal business hours to receive tailored guidance and support in setting up the algorithm for optimal performance in their trading strategy. Simply schedule a session using our Calendly link: [Schedule a session] (<https://calendly.com/trendfusionalgo/algo-set-up>).

5. Are there tutorials available for using the algorithm?

– Yes, a video tutorial is included in the welcome email to help traders navigate the setup process and understand the features of the algorithm. For further assistance, traders can book a one-on-one session for personalized guidance.

6. What markets does the algorithm trade in?

– Trend Fusion algorithm operates across all major markets including stocks, forex, commodities, and indices, ensuring traders have diverse opportunities to capitalize on market movements.

7. How frequently does the algorithm execute trades? ^

– The algorithm adapts to current market conditions and executes trades multiple times per week, providing traders with consistent opportunities to profit from emerging trends.

8. Can I use the algorithm with my existing broker?

– Trend Fusion is seamlessly integrated with TradingView, allowing traders to utilize their preferred broker while accessing the algorithm's powerful trading signals and insights.

9. What support is available during the trial period?

– During the trial, traders have access to responsive email support for any inquiries or assistance needed, ensuring a smooth and seamless experience as they explore the algorithm's capabilities.

10. What is the recommended starting capital for using the algorithm?

– While there's no specific recommendation, we advise traders to start with capital they're comfortable risking, gradually scaling up as they gain confidence in the algorithm's performance. For newcomers, we highly recommend starting with paper trading to practice risk management strategies.

11. How do I cancel my subscription?

– You can cancel your subscription at any time by contacting our support team at [support@trendfusalgo.com](mailto:support@trendfusalgo.com).

12. What happens if I cancel my subscription after the trial period has ended?

– If you cancel your subscription before the trial period has ended your cancellation will take effect immediately. However, you will still be responsible for charges incurred for the current billing cycle since services were provided if you cancel after the trial has ended.

13. Can I receive a refund if I cancel immediately after the trial period?

– Generally, refunds are only issued within 7 days after the trial period. This policy is in place because the trial period is intended to give you full access to the service to make an informed decision before the billing cycle begins.
