

PulseWave™ Indicator – Return Policy

Effective Date: April 27, 2025

All sales of the PulseWave™ Indicator are **final**. Because the product is delivered as a digital, invite-only TradingView script that cannot be “returned” once access is granted, **we do not offer returns, exchanges, or refunds under any circumstances.**

Before purchasing, please review:

1. **Product Details** – Read the feature list, FAQs, and risk disclaimer.
2. **System Compatibility** – Confirm you have an active TradingView account.
3. **Risk Acknowledgment** – Understand that trading involves risk of loss and results are not guaranteed.

If you have questions prior to purchase, contact **support@pulsewaveindicator.com** and we'll be happy to help. Once payment is processed and TradingView access is granted, the transaction is complete and non-refundable.

Thank you for understanding and for choosing PulseWave™ to power your trading decisions.
