General Disclaimer on Trading Risks

Financial Spread Trades, Contracts for Difference (CFDs), and other leveraged products are complex instruments and come with a high risk of losing money rapidly due to leverage. 82.4% of retail investor accounts lose money when trading CFDs with this provider. You should consider whether you understand how CFDs work and whether you can afford to take the high risk of losing your money.

Trading CFDs, futures, indices, and related instruments is highly speculative and may not be suitable for all investors. You acknowledge that you are solely responsible for your trading decisions, and you understand that past performance does not guarantee future results.
