

Return & Refund Policy — AlgoSniper **Effective Date:** November 11, 2025

This Return & Refund Policy explains how returns, cancellations, and refunds are handled for purchases made through **Whop** for **AlgoSniper** products, memberships, and related digital services.

1. Digital Product Policy All AlgoSniper products — including indicators, memberships, mentorship sessions, and educational materials — are **digital-only** and provide **instant access** upon purchase.

Because access is granted immediately, **all sales are final** and **non-refundable** once access has been delivered.

This protects the proprietary software, source code, and educational materials contained within the AlgoSniper ecosystem.

2. Subscriptions & Renewals AlgoSniper subscriptions automatically renew at the end of each billing period unless canceled.

- You may cancel renewal **anytime before** your next billing date directly in your **Whop account dashboard**.
- Canceling stops future charges but **does not** generate a refund for the current active period.
- Once access has started, **partial refunds or prorated credits are not available**.

3. Unauthorized Purchases or Payment Disputes If you believe your payment was unauthorized or made in error, please contact **Whop Support** or our support team within **48 hours** of purchase.

Filing false chargebacks for delivered digital access may result in account suspension or permanent access revocation.

4. Limited Exceptions Refunds may be considered **only** in these situations:

- Duplicate purchase of the same license or subscription;
- Verified technical issue preventing access to AlgoSniper that **cannot be resolved** by support.

All refund requests must include your Whop transaction ID and will be reviewed individually.
