

ORLA SERVER RULES

Read and follow all rules to keep your access and avoid punishments.

1. Respect everyone

Always treat others with respect. No hate speech, bullying, discrimination, or harassment. This includes racism, homophobia, sexism, threats, or personal attacks. If you start drama, you will be removed.

2. No NSFW or illegal content

Explicit, graphic, or illegal material is not allowed. This includes adult content, gore, stolen content, exploits, cracking tools, drug references, or anything else that breaks the law or Discord rules.

3. No spam or disruption

Do not spam messages, emojis, links, pings, or mic activity. Do not join and leave voice over and over. Keep chat and audio clean and not annoying to others.

4. No promotions or ads

Self promotion is not allowed unless staff gives permission. Do not share links to servers, products, socials, or services. Promoting without approval can get you banned.

5. Stay on topic

Use each channel only for what it is made for. Off topic chat, questions, or content can be deleted. Repeating this can lead to punishments.

6. No impersonation

Do not pretend to be someone else. Do not fake usernames, act like staff, or copy profiles. Doing this can result in a ban.

7. Use common sense

If something feels wrong, do not do it. Trying to find loopholes in the rules will not work. If your behavior causes issues, staff will treat it as a rule break.

8. No stealing or leaking

Do not share, sell, or leak any files, scripts, tools, or methods from this server. This includes copying paid content, posting it anywhere else, or sending it in direct messages. First offense can be a ban.

9. English only in main chats

Use English in public channels unless the channel is clearly made for another language. This helps staff keep things clear and organized.

10. Follow Discord rules

This server follows the Discord terms of service and community guidelines. If it breaks Discord rules, it breaks ours.

11. All sales are final

Once you make a purchase, there are no refunds or exchanges unless staff clearly says otherwise. Check everything before you buy. Mistakes after payment will not be fixed.

12. Follow all instructions

If you enter wrong details or skip steps during a purchase, that is your fault. Staff is not responsible for mistakes on your side.

13. No chargebacks

Starting a dispute or chargeback can get you banned, blacklisted, and removed from all services. All attempts are logged. There are no exceptions.

14. Digital items only

Everything sold here is digital. You receive your purchase through Discord, a support ticket, or email. Nothing is physically shipped.

15. Open a ticket for help

If you need help, open a support ticket and explain the issue clearly. Do not spam or lie. Be respectful and wait for a reply. Abusing tickets can get you banned.

16. No lying or scams

Any dishonest behavior, including scams or faking anything, can result in a permanent ban. There are no second chances.

By using this server you accept all rules and any future updates.
